BANSHE
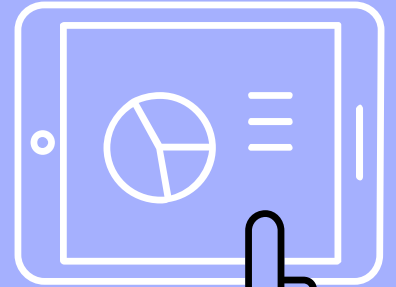

## TASK MANAGEMENT APPLICATION
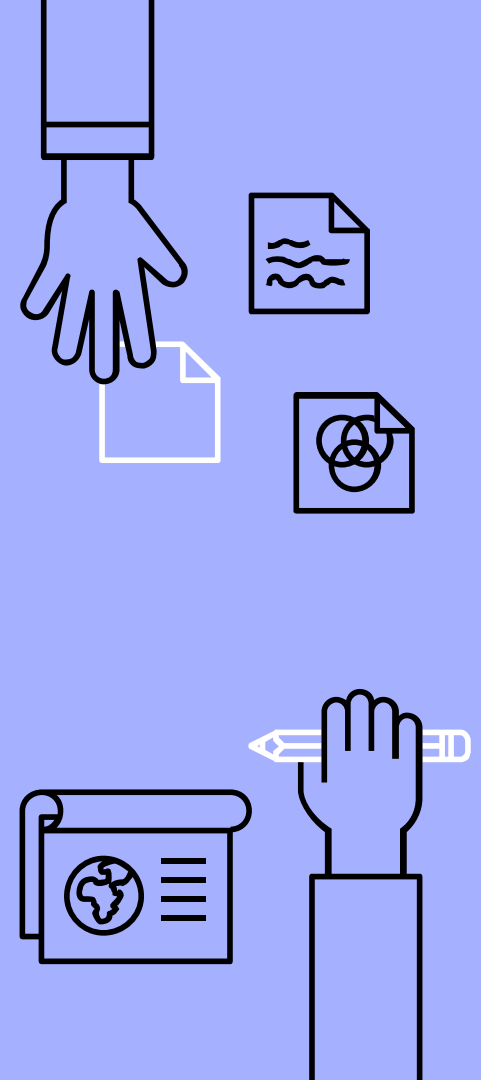

Shannika Jackson

THE PROJECT...

LIFE MANAGEMENT

- Problem of **PROCRASTINATION**
  - ✓ We are often intimidated by an important task or goal
- Faced with a daunting **GOAL**
  - ✓ It is often helpful to plan how the goal is to be achieved then
  - ✓ Break it into smaller more manageable steps
- Too little **TIME**
  - ✓ Prioritize each step then
  - ✓ Assign timelines to each step

TASK MANAGEMENT

- Set a goal
- Itemize the tasks required to complete this goal
- Prioritize each task
- Estimate the time required to complete each task
- Check each task as they are completed

- **COMPLETE GOAL!!**
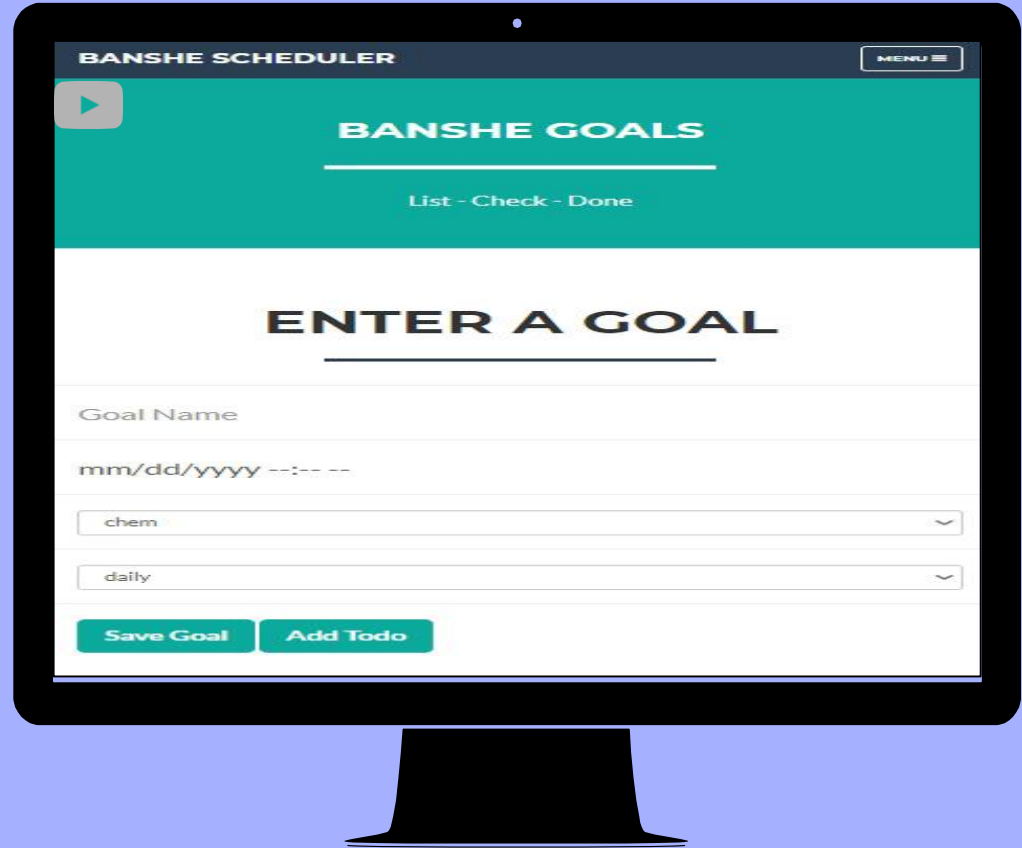

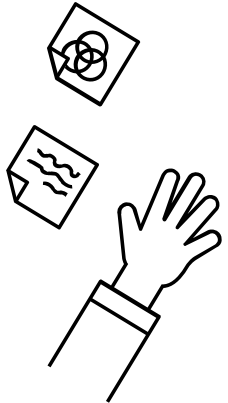

BANSHE GOALS

List - Check - Done

3

Uses a custom **Flask** API written in **Python.**
HTML,CSS and **JS** powered front end
MongoDB backend

LIST:

Important goals and to-do items required to achieve them

- Easily add and track goals
- For each goal add:
  - Deadline
  - Priority
  - Reminder Frequency
 - To-do List

CHECK:
Active and Completed Goals

- Filter existing goals based on their deadlines
- Select, edit or delete active goals and to-do lists
- Mark goals as complete once they are accomplished
- Revert completed goals to active status

DONE:

Watch Countdown timers for upcoming deadlines

- View all goals due for the current day
- Show countdown timers for goals due today
- Pop up alert once deadline arrives

Future Improvements

LIFE MANAGEMENT:

- Receive multiple reminders until deadline arrives
- Prioritize and manage to-do list items
- Move and copy to-do lists among goals
- Customized alerts and displays based on goal priority
- Progress displays for ongoing goals
- Development for mobile devices
